

I love K-LOVE radio. I listen to it all the time: in the car, at home, and sometimes even at work. I know for a fact this radio station has helped tons of people and has even saved some people's lives. I think it would be an awful tragedy to lose any K-LOVE radio stations to the new LPFM stations getting priority. Please don't take away this station. Take away any other ones you like, but K-LOVE serves God and His people, of which I am one. I don't think anything good that helps people become better people should be taken away from the public. Thanks for your time!
